 niranjan-digraje

 niranjan-digraje

SKILLS

- **Programming languages** : C , C++ , Java
- **Development** : HTML , CSS , JavaScript , Bootstrap , MongoDB , ExpressJS , ReactJS , NodeJS , MySQL , JDBC , Flutter Development
- **Version Control** : Git & Github
- **Coursework Subject** : Data Structure & Algorithm, Object Oriented Programming, Database Management System, Computer Network, Operating System.

EDUCATION

- B.Tech (CSE) | KIT's College Of Engineering , Kolhapur CGPA:7.18 | Dec '21 - June '25
- XII (MSBE) | Mahatma Gandhi Junior college , Rukadi 74.50% | 2021
- X (MSBE) | Mahatma Gandhi Vidyalaya , Rukadi 87.20% | 2019

EXPERIENCE

- ❖ **Web Development | Apna College** 17 Nov-16 Dec 2023
 - Proficient in web development, with expertise in MERN stack and building basic web pages. Experienced in creating intuitive design and layout files. Completed a internship with gaining practical skills and knowledge in the field.

PROJECTS

- ❖ **Wander-Lust**
 - **Technology** : HTML , CSS , JavaScript , Bootstrap , mongodb , ExpressJs , NodeJs
 - **Project Link** : <https://github.com/niranjan-digraje/WanderLust>
 - It aims to book your hotel rooms on client side and Perform CRUD operations on admin side i.e. add new rooms , delete rooms and control reviews. Also it has additional features signup and login on both client and admin side. All media of Mongodb database is connected to the cloud online platform.
- ❖ **Bank-Management-System**
 - **Technology** : Core Java , MySQL , JDBC
 - **Project Link** : <https://github.com/niranjan-digraje/Bank-Management-System>
 - This Java console based application allows you to manage user accounts, perform transactions, and ensure the security of financial data. Performs operations like User Registration & Login, Account Creation, Debit and Credit Transactions, Money Transfer Between Accounts, Balance Inquiry, Robust Security Measures.
- ❖ **Weather-Widget**
 - **Technology** : React , Material UI
 - **Project Link** : <https://github.com/niranjan-digraje/WeatherWidget>
 - It aims to show the current weather information of searched city. It display information of weather like temperature, humidity, maximum and minimum temperature , and how weather feels like.

ACHIEVEMENTS / CERTIFICATIONS

- Full Stack Website Development (MERN Stack) Certification | Apna College (June – Nov 2023).
- Java & JDBC Certification | APT-Tech (Oct 2023 – Jan 2024).
- AWS Academy Cloud Foundation Certification | AWS Academy (20 hours).
- Solved Top 100 coding question on Prep Insta.
